OPPEA Renato	Assessore	P	
PUGEDDU Laura Anna	Assessore	P	
TOTALE		7	

Assume la Presidenza il Sindaco Dott. Antonio Melis,

Assiste alla seduta il Segretario Generale Rag. Giacomo SADDE

Promotion refers to the approach of viewing learning as a process and does not include the notion of self-control or self-regulation. It is associated with the concept of "metacognition." This term has been defined as "the ability to reflect on one's own cognitive processes and to control them" (Klahr & Kotovsky, 1983). In this context, metacognition is concerned with the individual's knowledge about his/her own cognitive processes and how to use this knowledge to regulate his/her own cognitive performance. The individual uses this knowledge to plan, monitor, evaluate, and regulate his/her cognitive performance.

Metacognition and the promotion of effective learning

Metacognition and the promotion of effective learning

Metacognition and the promotion of effective learning is concerned with the individual's knowledge about his/her own cognitive processes and how to use this knowledge to regulate his/her own cognitive performance. The individual uses this knowledge to plan, monitor, evaluate, and regulate his/her cognitive performance.

Metacognition and the promotion of effective learning is concerned with the individual's knowledge about his/her own cognitive processes and how to use this knowledge to regulate his/her own cognitive performance.

Metacognition and the promotion of effective learning is concerned with the individual's knowledge about his/her own cognitive processes and how to use this knowledge to regulate his/her own cognitive performance. The individual uses this knowledge to plan, monitor, evaluate, and regulate his/her cognitive performance.

Data and **metacognition** are concerned with the individual's knowledge about his/her own cognitive processes and how to use this knowledge to regulate his/her own cognitive performance.

Acceptability is concerned with the individual's knowledge about his/her own cognitive processes and how to use this knowledge to regulate his/her own cognitive performance.

REFERENCES AND NOTES

DEFINITIONS

DEFINITION OF A CERTAIN CLASS OF POLYMERS.—In order to describe the polymers which are the subject of this invention, it is necessary to define certain terms. The term "polymer" means a polymer of a single monomer or a copolymer of two or more monomers. The term "monomer" means a molecule which can undergo addition polymerization.

The term "addition polymer" means a polymer formed by the addition of monomer units to a polymer chain. The term "catalyst" means a substance which promotes the polymerization of a monomer.

The term "radical" means a group of atoms which is capable of undergoing a chemical reaction.
